

Job Number: 202388 / 150332

Dear Mrs Test

The results of your cleansing, submitted on DD/MM/YYYY are now available for collection. Simply run the Intact application or click [here](#), if you are using the browser version of Intact, and follow the retrieval instructions. The results are available for 5 days.

Please find below a complimentary audit of your data.

Data counts

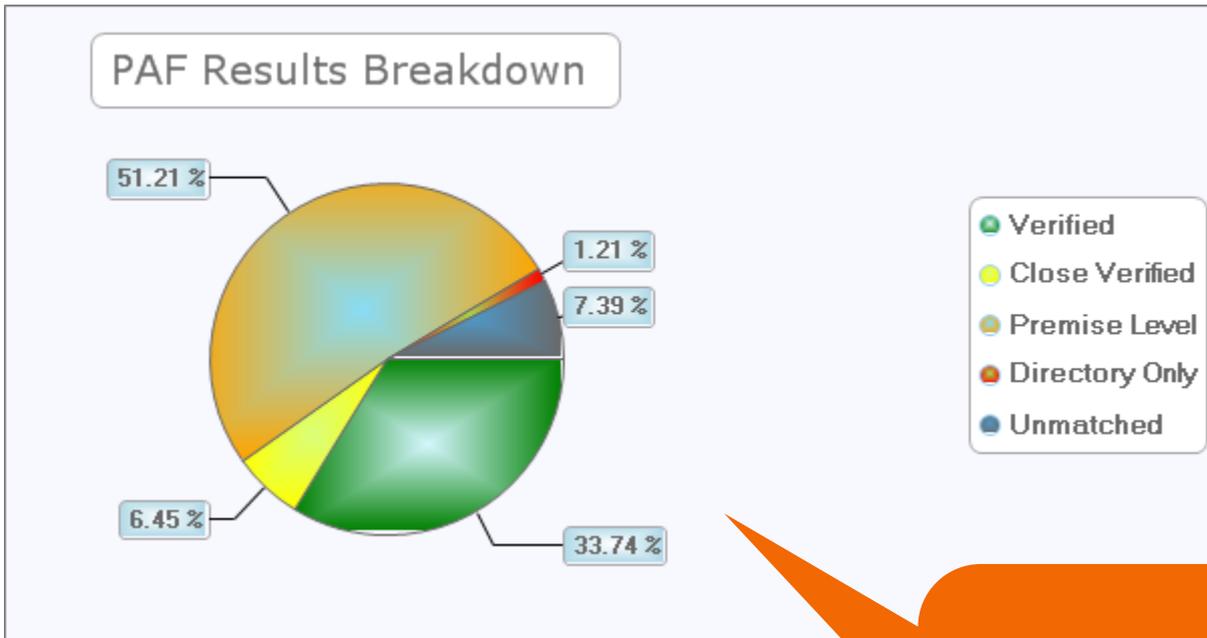

- The following is a summary of the submitted data.

Number of records (0 have no company name):	744
Number of Contacts:	744
Number of Telephone Numbers:	744
Number of Fax Numbers:	0

These figures relate to the number of records, and the related contact information, on the file that you submitted.

Addresses

- After Intact, 680 (91.40%) addresses are correct to PAF standard and 308 (41.40%) have a verified company name.

Number of company names & addresses which were incorrect before cleansing:	493 (66.26%)
Verified: The supplied Organisation and Address are correct with no or little amendment made:	251 (33.74%)

Experian Intact compares the business names and addresses in your input file against the Postcode Address File and national Business Database, and provides figures for the number of records that can be updated.

Close Verified: Intact has been able to close verify the supplied information by making some minor changes:	48 (6.45%)
Premise Level Verification: The address supplied is to PAF standard, however the organisation cannot be absolutely verified. This can be down to differences in the supplied organisation name:	381 (51.21%)
Directory Only Verified: The organisation can be confirmed against our directory sources, however there is no validation against the Royal Mail PAF file:	9 (1.21%)
Unmatched: No level of verification can be gained across PAF or our directory sources:	55 (7.39%)
Number of company names which Intact could not verify:	436 (58.60%)

Telephone Numbers

- Intact has been able to match 417 of your records to the telephone number file.

Intact will be able to amend 0 of your supplied telephone number records to fit the Number Day changes).

In addition to this, on an average file, we would expect that

10% (42) records will have a second or third telephone number appended by Intact

5% (21) of matched records will be Ex Directory

If your submitted file included telephone numbers then we are only allowed here to show the absolute matches, not the number of new numbers that may be available.

Experian Intact uses the BT OSIS file to append numbers where they are missing, or to append numbers to validate those already on the file

Suppressions

- Intact has identified that 86 (11.56%) of your records should not be mailed, 73 (9.81%) of your telephone numbers should not be tele-marketed and 0 (0%) of your fax numbers should not be fax marketed.

Number of Gone Aways (Annual Flag): 84 (11.29%) (7 at Contact level)

Number which appear on MPS:

Number which appear on TPS:

Number which appear on FPS:

Experian Intact uses a number of Industry recognised files to identify businesses and individuals that either cannot or will not respond to marketing campaigns.

Expiry Date:20/10/2015)

Date:20/10/2015)
